From Disease Name to Strategy Brief in Minutes

A Dual-Agent AI that researches any disease and writes the brief for you

20+ hrs — **TODAY**
Manual research across scattered journals and databases

<3 min — **WITH OUR PLATFORM**
An executive-ready brief, built automatically

1 · YOU GIVE

A disease name

Example
Plaque Psoriasis

That is all you provide.

2 · THE AI DOES

Dual-Agent AI, working at the same time

Agent 1: Clinical Researcher

READS Medical journals
FINDS About the disease · Today's treatments

Agent 2: Market Analyst

READS Clinical trial records and company news
FINDS New treatments coming · **Why past ones failed** · Key players

3 · YOU GET

Executive Strategy Brief

Combined, fact-checked and formatted automatically

- ✓ About the disease
- ✓ Today's treatments
- ✓ New treatments coming
- ✓ **Why past ones failed**
- ✓ Key players

Our edge: learning from past failures to de-risk investment

Built on official sources: **PubMed** · **ClinicalTrials.gov** · company and regulatory filings
